

POLICY OF THE INTEGRATED MANAGEMENT SYSTEM FOR THE QUALITY, ENVIRONMENT, HEALTH AND SAFETY

SIAPI SMARTECH s.r.l. wants to guarantee over time a high quality product that meets the technical requirements, needs and expectations (expressed or implicit) of its customers in a work environment that ensures full compliance with all applicable standards. For this purpose, SIAPI SMARTECH carried out an accurate analysis of the context in which it operates and identified the needs and expectations of the Interested Parties.

According to the results of these analyses, we have redefined our activities to ensure the protection of Employees, Suppliers, Customers, external environment and other Stakeholders.

The Policy for the Quality, integral part of the corporate strategy, plans to provide to the Customers not only reliable products and services but also a customized and efficient assistance. In order to achieve these results and to realize this strategic choice, SIAPI has been adopting since 1997 a Quality Management System which has been updated according to the UNI-EN-ISO 9001:2015. The process of certification has been positively accomplished in date 17/12/2017.

The certification has been renewed in date: 17/12/2020 with expiry date: 16/12/2023.

In January 2021 SIAPI has informed the Certification Authorities regarding the change of Company Name in SIAPI SMARTECH srl.

The Policy for the Environment, defines the objectives of the environmental impacts, through a continuous engagement and training of all the employees, creating the basis for an industrial culture that identifies the respect for the Environment as a priority value. In order to achieve these results and to realize this strategic choice, Siapi Smartech has been adopting since 2008 an Environment Management System, which has been updated according to the UNI-EN-ISO 14001:2015. The process of certification with the new regulation has been positively accomplished in date 17/12/2017.

The certification has been renewed in date: 17/12/2020 with expiry date: 16/12/2023.

Following to the sale of a company branch and the consequent reduction of the environmental impacts, SIAPI SMARTECH has decided not to renew the certification, while maintaining the control of the processes with regard to the environmental aspects.

The Policy for the Health and Safety in the workplaces, has always been pursued, in the full respect of all the regulations of the industrial field; it constitutes an essential element of corporate processes able to guarantee the best possible working conditions to all the employees, the cooperators and the suppliers of goods and services entering into contact with our facilities.

In order to achieve these results and to realize this strategic choice, SIAPI SMARTECH has been adopting since 2010 the principles of the BS-OHSAS 18001:2007 regulation, as indicated in the legislative decree nr. 81/08, article 30.

The communication of the values above constitutes for SIAPI SMARTECH a priority and a necessity to involve all interested parties (Suppliers, Customers and Cooperators) in the process of continuous improvement to guarantee sustainable development over time.

SEAM Project – Fepa (Federation of European Producers of Abrasives)

SIAPI SMARTECH is one of the 23 companies belonging to Fepa that are actively contributing to the realization of the SEAM project (Sustainability of the European Producers of Abrasives). The objectives of the project are: environmental (saving energy and resources, emission control), social (worker protection, prevention of accidents at work, compliance with the safety standards), economic (ethical competition, antitrust, control of the entire supply chain).

The Direction,

Milan, September 2021
